Sri. Sundara Sherigara is an engineer in Ceramic Technology and possesses rich experiences in the research field of ceramics. Since 20 years he is working for Ministry of MSME, Govt.of India. He is a National Trainer in Entrepreneurship Motivational Training Lab (EMT Lab) and also a trained consultant in Human Resource Development through Entrepreneurship Training. He organized more than 200 Training Programmes all over India and has lot of affinity towards Behavioral Science and Psychology.

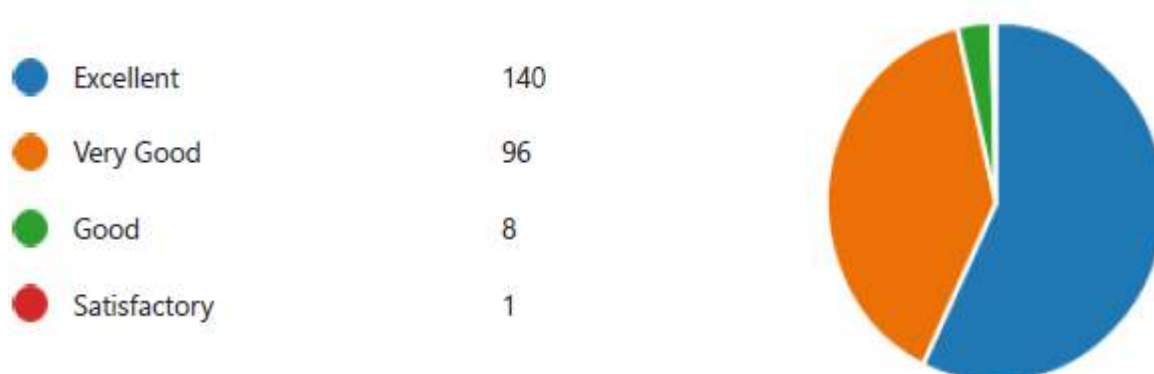

In his speech he addressed the ground reality of problems faced by students right from SSLC in selecting the future career. He expressed the strong need of self employment rather than getting appointed under an employer with examples of his own life and other successful innovators. In a motivational way he excited the sentiments and emotions of adolescent students to stand on their own leg. For this he quoted example of cell phone repairers who earn quite good per month. In this direction, investing of money, interest and hard work must be blended in a correct direction. One should go along with personal interest. While starting a new enterprise start with a new, unusual idea and marketing strategy. Mr. Sherigara explained in detail, various government initiatives available.

The Students participation was very good and interacted with the resource person.

Dr. Lalitha Devi B, coordinator for the Impact Lecture program and convener of IIC, coordinated the program. Students Dhanya performed master of ceremony and Prajna introduced the guest.
